MERN Stack

Next.js

Software Development

Faisal Haroon

Learning. Creating. Evolving in AI.
Lahore, Punjab, Pakistan

Summary

Documenting my evolution in the era of AI. learning, building, and exploring what's next.

I started as a full-stack engineer, passionate about building things. Over time, I realized it's not just about tools, it's about mindset, curiosity, and the willingness to evolve.

Now, I'm sharpening three areas simultaneously: MERN → DevOps → AI. Not to chase hype, but to understand where the future is heading.

I'm documenting everything publicly, the learning, rebuilding, mistakes, and growth. This isn't a polished story. It's a real-time journey.

Let's see where it goes.

Experience

Self-employed

Full-Stack Engineer & AI Learner

November 2025 - Present (6 months)

As a Full-Stack Developer and AI Learner, I dedicated my time to mastering the MERN stack, DevOps, and AI. I focused on building projects that not only improved my technical skills but also allowed me to share my learning journey with others. This role has been pivotal in enhancing my problem-solving capabilities and understanding of modern development practices.

Self-employed

Content Creator

November 2025 - Present (6 months)

Creating short videos about my tech journey, including my Full-Stack, DevOps, and AI learning, while sharing insights on learning, building projects, and productivity, and growing an audience through consistent storytelling.

hytGenX

Software Engineer

November 2024 - September 2025 (11 months)

- Collaborated with cross-functional teams to enhance website functionality and user experience.
- Assisted in developing features using Next.js and React, focusing on clean code practices.
- Troubleshoot technical issues to ensure optimal website performance and reliability.

Beyond Technologies

Jr. MERN STACK DEVELOPER

June 2023 - September 2024 (1 year 4 months)

Lahore, Punjab, Pakistan
